

Commemoration of Sts. Juliane and Vasilouhie

In Church calendars there are many virgins named Juliane and Vasilouhie. However, the virgins commemorated according to the Armenian Church Calendar, are from the town Nikomedia.

St. Juliane (Juliana) had made the vow of celibacy since childhood. During the period of Christians' persecutions by the King Dioklethianos she refuses to marry a young heathen man and because of it is taken to the court. When after many torments and trials the saint is taken to be burnt, the fire goes out. St. Juliane is beheaded at the age of 19, in 304 AD.

St. Vasilouhie (Basilla) was a nine-year-old girl. She is subjected to torments during the period of Christians' persecutions by the King Dioklethianos. However, she survives all torments and trials and remains unharmed, and the judge, witnessing this, is converted the Christianity. She passes away in 309 AD.
